

Make a Festive Wreath

Equipment needed:

- Cardboard
- Scissors
- String
- Paper bag
- Greenery

← Cut out a ring of cardboard. I used a dinner plate for the outer circle and the sugar jar for the inner. Circle the string around it lots of times and tie the ends together.

→ Collect greenery on your walk in your paper bag.

← Tuck the greenery under the string and arrange it around the cardboard ring.

→ Use one of the bits of string to hang your wreath, alternatively, add another loop.
