NP/TCA/0224/0192	The Beech tree in the back garden of Fold Head Cottage, close to the lane opposite the old parsonage. It's branches are intermingled with the telegraph wires.	Accept
P10937 + 7698	Fold Head Edale	
NP/TCA/0324/0272	Fell tree to ground level. Grind stump to 20cm below ground level.	Accept
P1674	Narrow Gate Cottage Wardlow	
NP/TCA/0324/0275	(G1) 2 Sycamores, on either side of the road close to the shipping container: Crown raise these to around 5m. (G1) Small sycamore by the pedestrian gate and then the conifer to the right of this: Fell both to prevent damage to the wall. (G3) Also affecting the stone wall to the right of this is a row of trees to fell. These are: a sycamore, ash, beech, elder and a hawthorn. (T4) Behind these there is a cherry tree in poor condition: fell.	Accept
P3090	Candlemas Cottage Peak Forest	
NP/TCA/0324/0276	(T1) Yew tree to reduce by around 5m and trim around to balance the shape to this height. (T2) The first of these limes; remove any significant deadwood and crown raise to 6m also reduce the low limb over the drive by 50% (6m) to the suitable vertical pruning point. (T3) Lime, remove any significant deadwood and crown raise to 6m, especially over the drive side. (T4) Horse chestnut: Fell to just above ground level. (T5) Elm then beech trees moving further along drive: Aerial inspect then crown raise to 6m. (T6) Almost dead sorbus remove and stump grind. (G7) Trees around the rear boundary of the lawn: Crown raise these to around 5 metres. These are from right to left - lime, ash, 4 sycamores. (G8) 8 beech trees along the boundary with candlemass house: Crown raise to 5m. (G9) 8 lime trees across the rear lawn: Crown raise to 5m.	Accept
P3090	The Gables Peak Forest	

Applications determined by the Head of Development Control between
01/04/2024 and 30/04/2024

NP/TCA/0324/0279	Tree 1 - Elm tree to be removed due to causing damage to the stone wall and concerned of the potential of falling over and damaging the clients house. Tree 2 - Ash tree to be removed as concerned of the potential of falling over and damaging the clients property or to walkers on the adjacent public footpath. Tree 3 - Ash tree to be removed as concerned of the potential of falling over and damaging the clients property or to walkers on the adjacent public footpath.	Accept
P2320 + 5861	1 Royal Oak Mews Stoney Middleton	
NP/TCA/0324/0294	As you enter the Jervis Arms car park the first tree is a twin stemmed Ash (F. excelsior) on the left hand side. It has had Ash die back for several years, is badly affected and has become unsafe. It also suffers from a poor union between the stems. It needs to be felled. One side is over the car park the other over the garden. Both are soon to see use. Two replacement Silver Birch trees have been planted. One next it, one further up the car park. The Noble Fir (Abies procera) next to the bridge needs to be lightly crown lifted on the roadside to enable users of the car park to see and be seen. I believe a metre above the bridge parapet would suffice for this task. Branches below the parapet would be retained. At the top most part of the pub garden going up hill on the other side of the pub is a Goat Willow (Salix caprea). Its self sown and will grow much larger and cause problems with the wire services above and with motorists coming down the hill and not being aware a pub is just around the slight bend. If drivers are able to see the pub there is much more chance of the drivers anticipating a hazard and taking appropriate care. A mountain Ash (Sorbus aucuparia) would be planted as a replacement.	Accept
P7275	Jervis Arms Onecote	
NP/TCA/0324/0299	The tree is an English Yew planted by me some 25 yrs ago in my back garden, gone out of control. Height approx 15ft and encroaching on neighbour's view. I want to cut it down to about 3ft and manage the shoots into a low bush.	Accept
P3956	15 Glossop Road Hayfield	
NP/TCA/0324/0311	T1 Horse Chestnut: Reduce weight from heavy branches to reduce the risk of the branches failing. T2 Horse Chestnut: Reduce weight from heavy branches to reduce the risk of the branches failing. T3 Horse Chestnut: Reduce weight from heavy branches to reduce the risk of the branches failing. T4 Silver Birch Fell to ground level. T5 Yew Fell to ground level.	Accept
P	The Old Vicarage Onecote	
NP/TCA/0324/0319	My client has requested that the self seeding Sycamore tree located adjacent to the drystone wall in the field to be felled as it is causing damage to the wall potential damage to the nearby stable house. Also the seeds are causing issues with the health of the animals in the field.	Accept
P3126	52 Old Dam Peak Forest	
NP/TCA/0324/0333	T1 Damson (Prunus insititia) - Bifurcated trunks, north eastern one failed. Remove tree. Replant with same species. T2 Goat Willow (Salix caprea) - 1m prune to old prune points. Group 3 Mixed Species Woodland - Prune back where boundary trees are over growing into adjacent property. Reduce generally. T4 Aesculus hippocastanum - Trunk branches at about 2m into 4 large boughs. South Eastern bough is failing, with large split forming at the trunk union. Overhanging adjacent pub car park. Urgent action required. Remove whole tree. T5 Ash Fraxinus excelsior - roots causing continual lifting of tarmac and low retaining wall. Early signs of ADB. Remove and replace T6 Rowan - Dead and limbless. Remove	Accept
P463	Great Longstone Church Of England Voluntary Aided Primary School Great Longstone	
NP/TCA/0324/0334	1 YEW TREE - to crown reduce by 2m, to allow more light in neighbouring property	Accept
P3281	Mill House Bakewell

P11810	Alphaweld Ltd Calver	
NP/TCA/0424/0368	T1 - Ash - Dismantle to ground due to close proximity to neighboring property and suffering from ADB. T2 - Beech - Remove/Prune back the overextending branches as shown in photo, reduce overhang over the property.	Accept
P11789	Copperfields Calver	
NP/TCA/0424/0369	T1 - Conifer - Dismantle the leaning conifer due to root plate lift/movement caused by recent high winds.	Accept
P1950	Folds Head Close Calver	
NP/TCA/0424/0370	T10 - Common Laburnum - Remove, lower main stem has widespread decay T15 - Cypress - Remove, telecoms line passing through crown T21 - Deodar Cedar - Remove failed hanging branches and major deadwood throughout the crown. Aerial inspection of branch unions.	Accept
P1391	Hill Stiles Bradwell	
NP/TCA/0424/0374	T1 - Sycamore - Dismantle multi stemmed Sycamore due to damage caused to boundary wall and to allow for repairs to be carried out .	Accept
P4364	Queens Cottage Tideswell	
NP/TCA/0424/0381	Goat Willow - Pollard to approximately 7ft due to it's close proximity to the property, the highway and the public footpath	Accept
P2730	Wheelrights Cottage Eyam	
NP/TCA/0424/0386	T1 - Lime - Crown lift to 5.4m and remove the deadwood T2 - Beech - Reduce by approximately 6m to suitable replacement branches due to poor unions and ganoderma brackets T3 - Crab Apple - Remove the overextending Limb T4 - Cherry - Crown lift and prune to shape T5 - Beech - Reduce by approximately 5m to suitable replacement branches due to Kretzschmaria at the base	Accept
P2433	Wood End Baslow & Bubnell	
NP/TCA/0424/0406	Fell to ground level Silver Birch tree in rear garden. The tree is directly next to the sewer drain running through the rear garden, and the root system moving is damaging the drain. The owners would like to fell the tree and replant with a smaller species in a similar location.	Accept
P7690	White Cottage Great Longstone	
NP/TCA/0424/0414	T1 on the Site Plan - Dead Ash tree (with dieback). Hamps Valley Tree Surgeons advised to take down the whole tree. T2 on the Site Plan - Small Sycamore with squirrel damage. This tree is causing damage to the drystone boundary wall. Hamps Valley Tree Surgeons advised to take down the whole tree and adjacent Beech hedge which is also causing damage. T3 on the Site Plan - Sycamore which is causing damage to the drystone boundary wall and limiting the growth of the adjacent (much larger) Sycamore. We propose to take down the whole tree to enable wall repairs and give space for the larger Sycamore to flourish.	Accept

NP/TCA/0424/0434	1 Conifer tree - to fell - client would like more light in garden	Accept
P2951	The Haven Youlgrave	
NP/TPO/0424/0360	Shown in the photographs are three lime trees and one willow tree. On the Willow I request to reduce the vast majority of the large lateral limb to the growth points around the area indicated by the red line. This is to remove the risk of failure and thus damaging the hedge and fence below. Although the limb would look more aesthetically pleasing if it were to be completely removed I feel there is a risk of damaging the structural integrity of the remainder of the tree by creating such a large wound that close to the main trunk. Of the three lime trees I request to crown lift roughly to the height indicated by the red line as well as removing the epicormic growth from the bottom tree. The intention is to allow more light onto the drive and hopefully help save the yew tree shown in the final photograph that is massively in decline due to being outcompeted by the limes.	Accept
