Applications determined by the Head of Development Control between
01/08/2023 and 31/08/2023

NP/TCA/0723/0839	T1- Group of boundary vegetation made up of mixed species. To carry out re-pollarding of Lime trees & reduce height of Holly trees to historic pruning points. Cut back Holly where overhanging boundary wall (As agreed with Geoff Smith on site visit in March 2023) to allow dappled light into neighbouring properties. Park House Stanton-In-Peak	Accept
P2993 + 6207		
NP/TCA/0723/0843	The tree I am requesting to work on is a willow and is shown in the photograph provided. Our land agents are in the process of applying to create an access into the field behind roughly in the area highlighted by the yellow lines. I am requesting to remove the two larger branches indicated by the red arrows and any smaller branches that may get in the way to allow access whilst retaining the tree. 36 Duck Cottage Wetton	Accept
P677 + 10849		
NP/TCA/0723/0858	Shown in the first photograph is an ash that has dieback that is heavily weighted over the neighbouring garden and although small request that we remove it in a controlled manner so as to minimise damage if it were to fail. This ash also grows through some small self set sycamores that are also weighted over the garden and the neighbour has asked if these could be removed at the same time. Shown in the second and third photos are two sycamores that are part of the group that run along the boundary, these overhang the neighbouring property and as you can see they are in decline. I request that we dead wood them to prevent failure and investigate if there are any external factors that are causing these trees to decline. In the fourth photo is a large lateral branch that overhangs the property and an area the family frequently use, although it appears healthy I request we remove it to negate any risk of future failure. Highfield Farm Ashford	Accept
P8078		
NP/TCA/0723/0863	Shown in the photograph is a leylandii that I am requesting to remove. I have previously removed a neighbouring leylandii that was storm damage and ash tree with dieback with your permission and now this remaining tree looks completely out of place. I request that it be removed as it is quite large for its current location and only going to get bigger with increased chance of failure. It also offers little amenity value and is out of keeping with the village aesthetic. If my application is successful I will encourage the tenants to replace with smaller, more manageable shrubs. Poole House Pilsley	Accept
P2427		
NP/TCA/0723/0864	T1 elder - remove to ground level. The tree is located next to a historic building with the stem within a few cm of the buildings wall. Branches of the tree are in contact with the roof and walls of the building resulting in unacceptable level of risk of damage to the building. Also, the rooting system of the tree is considered to present high risk of damage to walls of building because the ground level is raised almost to roof level. Removal of the tree is required to prevent damage to the historic fabric of the building. G2 mixed species including yew, laurel, hazel and possibly others - Prune to allow 2m clearance from the house at Wayside. Currently branches are in contact with the rear wall and roof of the building resulting in unacceptable level of risk of damage to the building. Wayside Winster	Accept
P4269 + 1715		
NP/TCA/0723/0866	Dismantle of dead / dying elm. Dismantle of large elm limb over house - dying and excessive lean dangerous. Dismantle of smaller elm - dying. Branches chipped and taken off site, all timber and larger cord staying on site 1 Millers Bank Hathersage	Accept
P1196		
NP/TCA/0723/0874	Shown in the photograph is a self set hawthorn and a damson. I request that these be removed as the damson in particular is in poor condition and is having detrimental affects on the lawn. Park Cottage Baslow & Bubnell	Accept
P4163

P5865		
NP/TCA/0823/0913	Tree location is at the top of Eyam Dale, just around the corner junction with Church Street, within the grounds of Eyam Dale House. There is a Ash tree with ash die back. Because of this and its location next to the road and immediately after a bend on a very busy road I am concerned that in future it may fall (or sections of it may fall) onto the road causing a hazard. I would like to reduce the tree to approx 1m height (as it is covered in ivy and containing insects I would like to keep this stump). I have planted approx 25 new holly and yew trees in that area and there is a holly immediately to one side and a yew to the other which will, in time, fill the gap. Eyam Dale House Eyam	Accept
P5034		
NP/TCA/0823/0914	Goat Willow at front of Little Corner. Presumed self seeded 4 ft from house wall. Not obviously present when moved into property in Feb 2020. Since then vigorous growth and now approx 20 ft tall with spread over gate, path and road. Branches touching house. Plan to remove tree and replace with appropriate sized flowering shrub. Little Corner Chapel-en-le-Frith	Accept
