NP/TCA/0622/0750 P2564	To fell 3 x ash trees next to public footpaths due to ash die back Tolls Farm Wincle	Accept

Applications determined by the Head of Development Control between  
01/08/2022 and 31/08/2022

NP/TCA/0622/0792	<p>pin 1, A group of trees including 2 ash with ADB, 1 dead holly, 1 dead silver birch in the childrens play area. Remove all dead or dangerous trees</p> <p>pin 2, Ash with ADB roadside. Remove</p> <p>pin 3, Dead Silver birch roadside. Remove</p> <p>Pin 4, Ash with ADB Roadside. Remove</p> <p>pin 5, Ash with ADB Roadside. Remove</p> <p>pin 6. storm damaged poplar. Crown clean, remove damaged limb Replant with 15 natives along Edale Road edge</p> <p>See attached map</p>	Accept
P6514	<p>Hope Primary School</p> <p>Hope</p>	
NP/TCA/0622/0793	<p>A line of 8 mature pines at the bottom of the garden next to the rail way line. Remove 5 of the pines as they are a) very close to the railway track and b) blocking the views across the valley for all neighboring properties. The trees have limited landscape value and low amenity value. Replanting with a mix of beech and hawthorn hedging along the boundary with the occasional signature oak</p>	Accept
P2007	<p>Adyar</p> <p>Hathersage</p>	
NP/TCA/0622/0796	<p>Shown in the photographs are a group of hawthorns, one of which has already pushed the wall over. There are also four more that are growing too close to the wall and so request permission to remove them all in order that the wall be repaired and to prevent further damage in the future. All photographs are clearly marked up with the implications. All work to be carried out to BS3998:2010</p>	Accept
P11024	<p>Beeley Old Hall</p> <p>Beeley</p>	
NP/TCA/0622/0807	<p>I am requesting to remove some old lime coppice and multiple elders that are growing along the wall side in the paddock at Beeley Old Hall. As you can see from the photographs provided they have already brought a section of the wall down and so request that they be removed so the wall can be repaired and to prevent further damage in the future.</p>	Accept
P11024	<p>Beeley Old Hall</p> <p>Beeley</p>	
NP/TCA/0622/0854	<p>T1 - Ash, Crown reduction by 30% to mitigate the risk of damage to telegraph pole and phone lines. Also, showing early signs of die back. A reduction of the crown (sail effect) would be pro active tree management given the trees proximity to the road.</p> <p>T2 &amp; T3 - 2 x Rowan, Fell to ground level. Both trees are being suppressed by the neighbouring trees and are showing poor signs of vitality. Given the surrounding trees these two have little amenity value within the residential garden.</p> <p>T4 - Beech &amp; T5 - Silver Birch, Crown reduce by 30%. These two trees appear to be growing co-dependent. The beech is leaning towards and in very close proximity to residential buildings.</p>	Accept
P10132	<p>Gatehouse</p> <p>Little Hucklow</p>	
NP/TCA/0622/0862	<p>4 Conifer trees to fell to allow for boundary wall to be repaired.</p>	Accept
P2786	<p>The Old Forge</p> <p>Baslow &amp; Bubnell</p>	

Applications determined by the Head of Development Control between  
01/08/2022 and 31/08/2022

P2658	Stoney Middleton Hall Stoney Middleton	
NP/TCA/0722/0978	The tree is a large beech tree and Mr Ben King (tree surgeon) visited the site and informed us that the tree is in a dangerous condition as it has bark invasion by <i>Xylococcus betulae</i> and the beech scale insect <i>Cryptococcus fagisuga</i> which is causing the branches to de-leaf and drop. The tree is over a public footpath so is a danger to the general public. He recommended immediate removal.	Accept
P2561	Alstonefield Manor Alstonefield	
NP/TCA/0722/0989	I am applying on behalf of the client as a local tree surgeon to undertake the task to fell and remove the tree from the rear of the garden. My client has requested that his 20ft Holly tree located in the rear of the garden to be felled and removed due to the tree has outgrown the size of the garden and is dropping a large amount of leaves on the lawn. The client has agreed to plant 2 x apple trees, 2 x cherry trees and 2 x pear trees in the rear garden once the holly tree has been felled.	Accept
P6484	Dale Head Eyam	
NP/TCA/0822/1000	Shown in the photograph is a leylandii I am requesting to remove as it is causing excessive shading and is of low amenity value. It has outgrown its location and so request to remove it before it gets any bigger.	Accept

NP/TCA/0822/1041	<p>6 Mature Ash Trees that have very early signs of Ash Die Back. 1 is 5 meters from a holiday cottage used by the public. Numbered 4 on the plan 1 is 5 meters from a neighbouring property numbered 2 on the plan. 2 are over hanging a public road numbered 2 and 3 on the plan. 1 is close to 2 properties numbered 5 1 is below number 4 and needs minimal work. Ideally we want to preserve the trees and make safe by crown reducing or lifting maintaining the mature tree but reducing the weight of the bigger limbs so habitat won't be lost. We have discussed the work with local tree surgeon Paul Storer who has previously done work for us and seen examples of similar work he has recently undertaken in the village on mature ash trees with die back. It has to be emphasised that we have several other mature ash trees on our property which are in safer positions that we are monitoring and are healthy at the moment our aim is to prolong the life of the trees but ensure they are as safe as possible close to buildings and areas where the public go.</p>	Accept

NP/TCA/0822/1042	<p>1) Lime tree, A mature tree in good health next to the Orangery yard gate next to a retaining wall and cobbled roadway. Tree tag 3485. Pollard back to main stem reducing in height and width to 20ft 2) Lime tree, A mature tree in good health in the Orangery yard next to the original meat safe tree tag 3484. Pollard back to main stem reducing in height and width to 20ft. The curator would like to reinstate the original line of Lime trees that go from the Rose Garden terrace to the Orangery yard. The existing Lime trees would need to be pollarded down to allow light for 2 new Lime trees to be planted in the gaps. 3) Ash tree, Opposite herbaceous borders tree tag 3481. Significant die back in the crown, more so this year. I estimate it's at 50% dieback. We have been recommended to have it felled whilst it's safe to climb and be dismantled carefully rather than leave it longer and have it felled as it becomes unsafe to climb and will damage the garden lawns and banks. 4) 2 Holly trees at the top of the steps by Hampers Bridge, one smaller without a tag and one larger but has been previously pollarded with tree tag 3375. Fell to improve light and and open up views to the stream and improve access to the corner parkland gate. 5) A live branch recently dropped from a Corylus columna exposing significant decay within the branch. tree tag 3256. There are Ganoderma bracts lower down the trunk indicating there is much decay in the tree. To be felled and allowed to shoot from the base again and be kept as coppiced large shrub. This tree was previously worked on ten years ago due to the Ganoderma bracts and all the branches were brought back in for a crown reduction.</p>	Accept
P2741	<p>Lyme Hall Lyme Handley</p>	
NP/TCA/0822/1048	<p>I am requesting to crown lift and tidy 9 lime trees, 6 cherry trees, 1 leylandii and one sycamore to the indicated heights shown in the provided photographs. The reason for this work is to help tidy up the graveyard and help in the maintenance of it. I also request that this be an ongoing maintenance project that we continue to prune these trees as and when necessary to the agreed height</p>	Accept
P11040	<p>St Peters Church Edensor</p>	

Applications determined by the Head of Development Control between  
01/08/2022 and 31/08/2022

NP/TCA/0822/1052 P11088	Mixed row of native self-set broadleaf trees to be reduced in height by up to 50% or to previous pruning points to manage growth of trees along hedgerow and improve views across the valley. Nether Padley Farm Grindleford	Accept
NP/TCA/0822/1060 P10469	Fraxinus excelsior 'Pendula' x1 - fell to ground level. Ashlar House Taddington & Priestcliffe	Accept
NP/TCA/0822/1068 P3765	Shown in the photograph is a cherry tree I have been monitoring for a couple of years as it has been declining over that space of time. The crown is now at less than 50% and not showing any signs of recovery and so request that it be removed before it becomes dangerous. The privet hedge has also died below it and so I request that that be removed while we are there. Rose Cottage Pilsley	Accept
NP/TCA/0822/1073 P3995	Mature multi stem sycamore 20 meters high, next to a listed chimney stack, part of the old mill. The sycamore is situated on top of a raised bank with little evidence of a good root system due to its location. Several bracket fungi bodies are present at 8 meters on one of the stems and other stems show cavities, depths unknown. Tree planting is ongoing across the site, which has a reasonable amount of tree cover already, the site is managed by a committee of residents living at the Mill Edale Mill Edale	Accept
NP/TCA/0822/1080 P10132	T1 - Ash, located within garden of Gatehouse and to the rear of Rose Cottage. This tree is displaying early signs of ash dieback. The tree has two stems creating an included union at the base. Although this currently appears sound because the larger of the two stems leans towards Rose Cottage there is concern that in the event of a failure significant damage would occur. I seek permission to carry out a 40% crown reduction to mitigate the risk of structural failure. Gatehouse Little Hucklow	Accept
NP/TPO/0622/0806 P8996	Yew - Fell as the tree is mostly dead. The tree only has half of its branches. It may have been damaged while the manor was being converted. Thornton House Winster	Accept
NP/TPO/0622/0808 P639	Fell Horse Chestnut tree due to disease.  *Check Cheshire East for TPO details Nab Cottage Pott Shrigley	Accept
NP/TPO/0722/0975 P6706	T1 fell, T2 remove dead wood from crown, T3 & T4 fell. Action required as described in report/ survey. Oaklands Hayfield	Accept

Applications determined by the Head of Development Control between  
01/08/2022 and 31/08/2022

NP/TPO/0822/1007

1. Following a site visit, it was noted that the large sycamore tree located on top of the bank just behind the fence line on LHS has a stem that totally overhangs the roof of the property and could potentially cause problems with damp/over shading. Propose to remove this left hand stem and Leylandii that's growing underneath. Sever Ivy at the base of the remaining Sycamore.
