PEAK DISTRICT NATIONAL PARK CORE STRATEGY EXAMINATION

21ˢᵗ January 2011 Response to INSPECTOR'S NOTE 1 – Initial Matters Concerning the Soundness of the Core Strategy

1   To assist my examination of the justification for and the soundness of the policies of the Core Strategy please can a schedule of the evidence source for each of the policies be provided, with reference to the CD Examination List.

1. NPA Response

1.1.   This has now been prepared and is available to view at Appendix A

2   I appreciate that at the time of the publication of the Core Strategy, the Secretary of State had indicated that Regional Strategy (RS) was revoked and thus did not form part of the development plan for the National Park. However, as you are aware, the RS has been re-instated and for the time being, forms part of the development plan. For soundness the Core Strategy should be in general conformity with it. Clarification is required of which Regional Spatial Strategy(s) (RSS) form part of the development plan for the National Park.

2. NPA Response

2.1.   For spatial planning purposes the entire National Park falls within the east midlands and while it remains in force the East Midlands Regional Plan (2009) is a formal part of the Development Plan. Proposed changes to this effect have been set out at S200.2 in G011.

3   Clarification is also required of which policies of the Core Strategy were amended in response to the temporary revocation of RSS, the nature of those changes, and if in the light of the re-instatement of RSS those changes are sound. Any other policies that are not in general conformity with the RSS should be identified and the reasons for their non-conformity should be explained.

3. NPA Response

3.1.   It was not necessary to make substantial changes to policy in order to take account of the Government intention to revoke the East Midlands Regional Plan (2009). Rather, the supporting text was modified to remove many references to it. This included the removal of a separate section on regional context from the introduction and the amendment of the policy context section in each chapter to refer to "national" rather than "national and regional" policy. Some references were retained, however, particularly where knowledge of the regional role in the development of or support for local policy provides useful evidence.

3.2.   The only policy modification made as a direct result of the intention to revoke the East Midlands Regional Plan was the addition of the first sentence of Policy

MIN1. This is a key element of strategy and repeats that set out (at present) in Policy 37 of the regional plan. It is, therefore, in conformity with the regional plan. Given the anticipated revocation of the regional plan it needs to be repeated in the Core Strategy in order to ensure continuity of this element of the Development Plan. Its inclusion is not considered to affect the Core strategy's soundness.

3.3. All Core strategy policies are in general conformity with the East Midlands Regional Plan (2009). This has been confirmed in the East Midlands Councils' letter of 17th January 2011 (G018).

4 In addition, the few references in the Core Strategy to the revocation of the RSS should be removed by a suggested change. I acknowledge that it is likely that RS will be revoked by legislation before the Core Strategy is adopted, and possibly prior to the end of its examination, so it may be prudent to word such suggested changes with this eventuality in mind.

4. NPA Response

4.1. Changes have been proposed in G011

5 The Core Strategy delivery plan, which is contained in a separate document, acknowledges that to be sound the Core Strategy should be demonstrably deliverable. However, I am not satisfied that it contains sufficient information to show who the main delivery partners are in respect of each of the policies, when policies are intended to be delivered, what necessary funding sources are necessary, potentially available and/or secured. Furthermore, in the absence of clear and meaningful indicators and targets for each policy, it is not clear how the Core Strategy will be monitored or how its policies and proposals will be managed to ensure that its vision and objectives are achieved. I would suggest that this information should be contained in implementation and delivery schedules that should be added to the Core Strategy document, either as an additional section or as additional appendices.

5. Response

5.1. The Authority has worked closely with local authorities (particularly in the Peak Sub area) during the preparation of the Core Strategy on the issue of delivery. The supporting Delivery Plan document takes a proportionate view on the 'delivery' of the Core Strategy, bearing in mind the low expectation for development in the protected area of the National Park.

5.2. The Core Strategy and its Delivery Plan describe the way in which the LDF will operate alongside the National Park Management Plan to establish a National Park focussed approach to spatial planning and monitoring.

5.3. The Delivery Plan uses a combination of simple text-based summaries of the delivery issues for each theme, alongside technical appendices which offer detailed analysis on matters such as:

5.3.1. the priorities set out in Sustainable Community Strategies; and

5.3.2. the estimated delivery of affordable housing by different spatial areas of the National Park.

5.4.   The introduction to the Delivery Plan states:

"To be effective a Local Development Framework (LDF) Core Strategy needs to show how the vision, objectives and strategy for the area will be delivered, and that the partners who are essential to its delivery have been engaged to assess:

- how much development is intended to happen where;
- by whom, by what means and when it will be delivered, together with arrangements for managing this;
- how the infrastructure needed to support the strategy will be provided, and as
- far as possible the costs, source of funding, who is responsible and any impact on phasing of development; and
- monitoring and review of delivery and of the strategy itself."

5.5.   **How much development is intended to happen and where?**

5.6.   The discussion around the development strategy, establishes an expectation of the amount of development that is anticipated both with the named settlements (80 to 90% (particularly with regard to housing)), and across the remainder of the open countryside (10 to 20%).

5.7.   While there are a range of associated strategies and action plans running in parallel to the Core Strategy, the only theme in the plan for which there are delivery intentions in a 'development' sense relates to the anticipated programme of delivery of affordable housing. Appendix E of the Delivery Plan sets out detailed estimates for the delivery of affordable housing by different spatial areas of the National Park. These estimates were drawn up in consultation with and agreed by local housing authority managers for the 3 largest districts.   Officers for the remaining authorities agreed that in the absence of progress on local investment plans in their areas, and given the small numbers involved, estimates for each area might best be arrived at by proportional comparison with the more detailed work for the 3 largest districts.

5.8.   **By whom, by what means and when will the strategy be delivered, together with arrangements for managing this?**

5.9.   Although the Delivery Plan sets out the role of partners and related programmes in jointly delivering the spatial vision and outcomes, it is accepted that this information might be presented more clearly. As an interim measure for discussion through the examination process the Authority therefore proposes a new implementation schedule (see Appendix B) describing Delivery Partners / Related implementation mechanisms / Timeframes / Funding status. Arrangements for managing delivery are being developed in the context of the review of the National Park Management Plan happening concurrently to the preparation of the LDF. The Authority is keen to join-up the processes for review and monitoring of its strategic documents, particularly the LDF and National Park Management Plan. The concurrent preparation of these documents alongside corporate and service planning work has provided opportunities to combine processes, officer resources and data analysis for (1) broad 'State of the Park' purposes (used to monitor the National Park

Management Plan), and (2) the LDF AMR. This will provide a strategic overview of progress for the National Park as a whole and, within that, the spatial components delivered through the LDF. It is intended that reporting on the new National Park Management Plan will commence in 2013/14. The creation of a spatial approach to a 'delivery' framework is, therefore, under development across a number of key strategy documents, rather than simply the LDF.

5.10. **How will the infrastructure needed to support the strategy be provided?**

5.11. The delivery plan at paragraph 3.10 explains the joint work that has taken place with local District Councils to consider the infrastructure needs emerging from the Spatial Strategy. The conclusion reached was that there were no additional requirements for infrastructure resulting from the plan proposals that are of a scale beyond that suited to discussion on an individual site basis.

5.12. Nevertheless, the Core Strategy includes a policy (GSP4) that will enable greater planning benefit from development proposals, to assist service providers where there are particular priorities for funding and investment.

5.13. **As far as possible identify the costs, source of funding, who is responsible and any impact on phasing of development**

5.14. The Authority has sought to provide increased insight into the availability, need for and sources of funding in a new implementation schedule (see Appendix B).

5.15. **Monitoring and review of delivery and of the strategy itself.**

5.16. Delivery Plan Appendix F sets out a comprehensive range of indicators for every policy to aid the monitoring process. These include both contextual indicators to aid our understanding of the 'State of the Park' and local output indicators which reveal more about the impact of planning decisions and their contribution to higher level vision and outcomes. These indicators will form the basis of future Annual Monitoring Reports.

5.17. In response to the point that "*in the absence of clear and meaningful indicators and targets for each policy, it is not clear how the Core Strategy will be monitored or how its policies and proposals will be managed to ensure that its vision and objectives are achieved*.", we would contend that there is a comprehensive range of well considered indicators set out for each policy. The issue of targets is more difficult. In some areas, such as housing, there is appropriate detail. Despite there being no target for housing development, the Authority has worked closely with the local housing providers to develop a set of figures which estimate anticipated delivery. However, in many other areas there are no easily quantifiable figures that can be proposed in relation to planning. Instead, they are dealt with by related monitoring of the National Park Management Plan and its strategy documents. The Authority has chosen not to duplicate these associated monitoring arrangements and to describe the approach to spatial planning and monitoring as a combined process between the LDF and the National Park Management Plan (see paragraph 5.9 above).

5.18. We note that the monitoring schedules in the Lake District Core Strategy do set out generic goals such as "bigger better" or "smaller better", and if this kind of approach is the desired model, the Authority would be prepared to look at it in more detail. However, it has not been possible to consider this in a thorough manner by the 21st of January. It may be possible to undertake further work as part of the response to MIQ's (deadline of the 11th March). We hope that these issues can be discussed more fully at the Pre- Hearing Meeting on the 3rd February.

5.19. One possible approach to the monitoring schedules would be to group batches of policies under theme headings to show more clearly how planning decisions contribute to the achievement of higher level vision and outcomes.

5.20. In the context of the full range of work undertaken by the Authority and others in pursuit of National Park purposes and duty, the overall approach to spatial monitoring is, perhaps, best described as "work in progress." In the period to 2013/14 (when reporting is anticipated to commence on the new National Park Management Plan), it will be possible to carry out further work to develop spatial approaches to monitoring, that capture both:

- The impact of development management on broad spatial areas defined and supported by the landscape strategy and its associated monitoring framework; and
- the links between the LDF and other associated strategies (some led by the NPA, some by other bodies) as noted in the proposed new delivery schedule at Appendix B. This will require a degree of flexibility in order to respond to changing drivers such as the emerging Local Economic Partnerships, and new community level work that might flow from the Localism Bill.

The Development Strategy

DS1: The Development Strategy

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
DS1	Landscape Strategy (AIT)	PDNPA, Natural England, Land owners and managers	2019	P
DS1	Cultural Heritage Strategy Action Plan and others (AIT)	PDNPA	reviewed 2011 and ongoing	P
DS1	Strategic Housing Land Availability Assessment	PDNPA, constituent housing authorities, RSLs	2010-14 2014-26 using annual monitoring	P
DS1	Live Work Rural Programme	PDNPA, Derbyshire Economic Partnership, emda.	Until April 2012	S
DS1	District Housing Needs Surveys		ongoing	S
DS1	Parish Housing Needs Surveys	Constituent housing authorities through Parish Councils and Rural Housing Enabler	4-8 p.a ongoing	S

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
DS1	Parish site search work	RHE with PDNPA planners and RSLs	c 6 p.a ongoing	S

8: General Spatial Policies

GSP1:Securing National Park Purposes and sustainable development
GSP2: Achieving enhancement of the National Park
GSP3: Development Management Principles
GSP4: Securing Planning Benefits

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
GSP1	Landscape Strategy (AIT)	PDNPA, Natural England, land owners and managers	2019	P
GSP1	Peak District National Park Climate Change Action Plan 2009 - 2011	PDNPA and partners	2011 and ongoing	N
GSP1	Cultural Heritage Strategy Action Plan and others (AIT)	PDNPA	reviewed 2011 and ongoing	P
GSP1	Peak District Biodiversity Action Plan Mid Term Review (AIT)	PDNPA and BAP partners	2020	P
GSP1	SPG for Energy, Renewables and Conservation and follow up SPD	PDNPA	ongoing with updated version to be adopted 2011	S
GSP1				

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
GSP2	Landscape Strategy (AIT)	PDNPA, Natural England, Land owners and managers	2019	P
GSP2	Cultural Heritage Strategy Action Plan and others (AIT)	PDNPA	reviewed 2011 and ongoing	P

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
GSP2	Peak District Biodiversity Action Plan Mid Term Review (AIT)	PDNPA and BAP partners	2020	P
GSP2	Conservation Area appraisals	PDNPA	ongoing	S
GSP2	Use of Stop and Enforcement Notice	PDNPA	ongoing	P
GSP2	Section 215 Notices	PDNPA	ongoing	P
GSP2	Site briefs	PDNPA	ongoing as necessary	P
GSP2	Planning permissions monitoring work	PDNPA	ongoing	P
GSP2				

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
GSP3	Development Management Document (AIT)	PDNPA	from 2012 and ongoing	S
GSP3	Design Guide	PDNPA	ongoing	S
GSP3	SPG for Energy, Renewables and Conservation and follow up SPD	PDNPA	ongoing with updated version to be adopted 2011	S
GSP3	Peak District National Park Climate Change Action Plan 2009 - 2011	PDNPA and partners	ongoing	P
GSP3				

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
GSP4	Charging Schedule SPD	PDNPA and constituent authorities	2013	P
GSP4				

9: Landscapes and Conservation

L1: Landscape character and valued characteristics
L2: Sites of biodiversity or geodiversity importance

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
L1	Landscape Strategy (AIT)	PDNPA, Natural England, Land owners and managers	2019	S
L1	Section 62 of the Environment Act. Scanning policy and planning applications from around the Park	PDNPA	ongoing	S
L1	Climate Change and Sustainable Building SPD	PDNPA, constituent authorities, RSLs, businesses and householders	to be adopted late 2011	S
L1				

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
L2	Peak District Biodiversity Action Plan Mid Term Review (AIT)	PDNPA, BAP partners, other landowners and managers	2020	P
L2	ELS and HLS farm payments	PDNPA and Natural England	ongoing	S
L2	Moors for the Future Programme	PDNPA, National Trust, RSPB, Natural England, Yorkshire Water, Severn Trent Water, Environment Agency, United Utilities, Derbyshire County Council	ongoing	S
L2	Climate Change and Sustainable Building SPD	PDNPA, constituent authorities, RSLs, businesses and householders	to be adopted late 2011	S

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
L3	Cultural Heritage Strategy Action Plan and others (AIT)	PDNPA	reviewed 2011 and ongoing	P

L3	Householder Planning Application Guidance Notes and Planning Application Validation Guidance	PDNPA	ongoing	S
L3	Conservation Area Management Plans	PDNPA	ongoing	S
L3	Climate Change and Sustainable Building SPD	PDNPA, constituent authorities, RSLs, businesses and householders	to be adopted late 2011	S

10: Recreation and Tourism

RT1: Recreation, environmental education and interpretation
RT2: Hotels, bed and breakfast and self catering accommodation
RT3: Caravans and Camping

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
RT1	Recreation Strategy: Active in the Outdoors (AIT)	PDNPA and the Recreation Partnership	2020	P
RT1	resident and visitor surveys	PDNPA	ongoing	P
RT1	Working with People and Communities Strategy (AIT)	PDNPA and partners	ongoing	P
RT1	Landscape Strategy (AIT)	PDNPA, Natural England, Land owners and managers	2019	S
RT1				

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
RT2	Sustainable Tourism Strategy to be developed	Destination Management Organisation for the Peak District (format and partners as yet unknown)	strategy being developed	P
RT2				

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
RT3	Sustainable Tourism Strategy to be developed	Destination Management Organisation for the Peak District (format and partners as yet unknown)	strategy being developed	P
RT3	Landscape Strategy (AIT)	PDNPA, Natural England, Land owners and managers	2019	S
RT3	-	-	-	-

11: Climate Change and Sustainable Building

CC1: Climate change mitigation and adaptation
CC2: Low carbon and renewable energy development
CC3: Waste Management - domestic, industrial and commercial waste
CC4: Waste management - on-farm anaerobic digestion of agricultural manure and slurry
CC5: Flood risk and water conservation

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
CC1	Climate Change and Sustainable Building SPD	PDNPA, constituent authorities, RSLs, businesses and householders	to be adopted late 2011	S
CC1	Code for Sustainable Homes	PDNPA and constituent authorities and Registered Social Landlords	ongoing	N
CC1	Planning conditions	PDNPA	ongoing	S
CC1	Section 106 agreements	PDNPA	ongoing	S
CC1	Single Conversation Delivery Plans	PDNPA and consituent authorities	ongoing	N
CC1	Climate Change Strategy and Action Plan	PDNPA and organisations with section 62(2) duties.	ongoing	N
CC1	Application of Building Emissions Rate standard	PDNPA	ongoing	N
CC1	Sustainable Development Fund grant aid	PDNPA	ongoing	S

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
CC1	Moors for the Future Programme	PDNPA, National Trust, RSPB, Natural England, Yorkshire Water, Severn Trent Water, Environment Agency, United Utilities, Derbyshire County Council	ongoing	S

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
CC2	Climate Change and Sustainable Building SPD	PDNPA, constituent authorities, RSLs, businesses and householders	to be adopted late 2011	S
CC2	Landscape Strategy (AIT)	PDNPA, Natural England, Land owners and managers	2019	S
CC2	Householder Planning Application Guidance Notes and Planning Application Validation Guidance	PDNPA	ongoing	S
CC2	Climate Change Strategy and Action Plan	PDNPA and organisations with section 62(2) duties.	ongoing	N
CC2	Sustainable Development Fund grant aid	PDNPA	ongoing	S
CC2				

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
CC3	Climate Change and Sustainable Building SPD	PDNPA, constituent authorities, RSLs, businesses and householders	to be adopted late 2011	S
CC3	Joint Municipal Waste Management Strategy	PDNPA, Derbyshire and constituent district authorities	ongoing	N
CC3	Sustainable Development Fund grant aid	PDNPA	ongoing	S
CC3	Peak District Biodiversity Action Plan Mid Term Review (AIT)	PDNPA and BAP partners	2020	P

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
CC3	Landscape Strategy (AIT)	PDNPA, Natural England, Land owners and managers	2019	S
CC3				

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
CC4	Climate Change and Sustainable Building SPD	PDNPA, constituent authorities, RSLs, businesses and householders	ongoing	S
CC4	Sustainable Development Fund grant aid	PDNPA	ongoing	S
CC4	Landscape Strategy (AIT)	PDNPA, Natural England, Land owners and managers	2019	S
CC4	Peak District Biodiversity Action Plan Mid Term Review (AIT)	PDNPA and BAP partners	2020	P
CC4				

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
CC5	Climate Change and Sustainable Building SPG	PDNPA, constituent authorities, RSLs, businesses and householders	to be adopted late 2011	S
CC5	Catchment Flood Management Plans covering the Park	Environment Agency	ongoing	N
CC5				

12: Homes, shops and community facilities

HC1: New Housing
HC2: Housing for key workers in agriculture, forestry or other rural enterprises
HC3: Buying existing homes to add them to the affordable housing stock
HC4: Sites for gypsies,travellers or travelling showpeople
HC5: Provision and retention of community services and facilities
HC6: Shops, professional services and related activities

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
HC1	Housing Investment Plans for Derbyshire Dales and High Peak, Staffordshire Moorlands, Sheffield	HCA, Constituent housing authorities, Registered Social Landlords	to 2015	P
HC1	Strategic Housing Land Availability Assessment	PDNPA and constituent housing authorities	First SHLAA completed 2009 to cover periods 2010-14 2014-26 Using annual monitoring	P
HC1	District Housing Needs Surveys	Constituent housing authorities	ongoing review as required	S
HC1	Parish Housing Needs Surveys	Constituent housing authorities through Parish Councils and Rural Housing Enabler	4-8 p.a ongoing	S
HC1	Parish site search work	RHE with PDNPA planners	c 6 p.a ongoing	S
HC1	Landscape Strategy (AIT)	PDNPA, Natural England, Land owners and managers	2019	S
HC1	Conservation Area Management Plans	PDNPA	ongoing	S
HC1	Affordable Housing SPG	PDNPA	Adopted 2003 and ongoing	N

Policy	Implementation tools (with action plan and/or indicators and/or targets (AIT)	Delivery partners	By when	Funding needed (Not needed (N) potentially available (P) Secured (S))
