

Appendix 7: Conservation Area appraisals

The Conservation Areas in the National Park are listed below and shown on the Policy Map.

A Conservation Area is defined as an area of 'special architectural or historic interest, the character or appearance of which it is desirable to preserve or enhance (Listed Buildings and Conservation Areas – Planning Act 1990)

The aim of Conservation Area designation is to ensure that this character is not destroyed or undermined by inappropriate changes.

Conservation Area Appraisals identify the special qualities that make a place worthy of designation as a Conservation Area.

Some Conservation Area Appraisals are on [the website](#) (those with dates of designation shown in the list below). The remainder are in an earlier format and can be viewed by contacting the National Park Authority.
