

## PEAK DISTRICT EXPEDITION AREA

Supported by

### Useful Information for the Peak District Expedition Area

#### **Please use in conjunction with the guidance documents available for the White Peak area and the Dark Peak Area**

**Access points** - The Ordnance Survey Explorer map (OL 1) of the Dark Peak and the British Mountain Map published by Harvey, **no longer** show access points to open access land.

**Dogs On The Moors** - Leaders are reminded to keep their dogs under close control. During bird nesting season (31<sup>st</sup> March to 1<sup>st</sup> July) and around farm animals, they must be kept on a short lead.
