<p>DESCRIPTION To re-point rather than re-render the east and north walls of the chapel. To build a wheelchair accessible pathway (1200mm wide) from the end of the existing paved path in front of the Chapel to the proposed accessible toilet facilities in the rear offshot. To build a low retaining wall behind the chapel alongside the new path to protect the back wall foundation (which is at higher level). Fitting a stove, the flue pipe of which would project through the church gable (west) then up through the rear roof slope of the schoolroom (and therefore not be visible from the front). The creation of an easily accessible, communal rear garden. Creation of a small car parking area at the front left of the building. This would involve moving and widening the existing gate posts.</p>
