DESCRIPTION	<p>T1 Horse Chestnut - This mature tree has had a significant sized limb snap during recent snow storms. The structure of the tree has been left unbalanced and compromised. There is also evidence of hollowing of the trunk at ground level. Permission is sought to heavily reduce the crown of the tree by up to 50%, effectively vetranising the tree.</p>

DESCRIPTION	Non material amendment to NP/DDD/1021/1063. The original design had a window to the North elevation into the utility room. We would like to make this a door. The original design had a central set of bifold doors. On reflection we would like to set these to one side and add a general stand alone door for more convenient access.
