NP/TCA/0624/0587	2 x London Plane, marked as '1' and '2' on the plan, previously pollarded but unmanaged for some years, to be pollarded back to single trunk approx 12' from ground level and allowed to regrow. All other trees on plan to remain, potential planting of small specimen trees once there is sufficient light in the garden. These trees are the wrong species in the wrong place and should never have been planted here. They were planted as semi-mature trees in individual crates needing a fork-lift truck to unload them on delivery. Although they were trimmed some years ago, they have subsequently been allowed to grow far too large for their position and completely dominate my adjoining property, casting shade all the way across my garden as far as the house. They are positioned less than 1.5m from the boundary and overhang my property by 5.5m. To remove growth on one side would make them unbalanced and unsightly. Short of felling, which I do not wish to see, I can see no other course of action than pollarding hard and allowing regrowth. The owner at Hydrangea cottage has agreed to a reduction in the size of these trees and would also benefit from more light. I would welcome the opportunity to discuss with the tree officer. I am in the process of developing a planting plan for my garden which has been neglected for some time but will be unable to proceed while these trees remain at their current height and spread.	Accept
P1010	Hydrangea Cottage Calver

NP/TCA/0624/0675	Our neighbours are concerned that the four conifers and one Wild Service tree in our car park area to the rear of Parsons Farm Buildings are becoming a potential hazard due to the closeness and size and will impact the cost of their house insurance. We propose to remove the four conifers to ground level and to reduce the crown of the Wild Service tree by 2 meters (as suggested by a tree surgeon) and to reshape the tree accordingly. Please refer to photographs on which each tree is marked in red text. A plan is also provided.	Accept
P9395	Tree A: Conifer Tree B: Conifer Tree C: Conifer Tree D: Conifer Tree E: Wild Service Tree (<i>Sorbus torminalis</i>) 4 Parsons Farm Buildings, The Bears Barn Hartington Town Quarter	
NP/TCA/0724/0682	T1 & T2 - Previously reduced Ash trees - Dismantle the Ivy covered Ash trees due to Ash Die Back.	Accept
P2652	Highbury Cottage Hathersage	
NP/TCA/0724/0683	T1 - Variegated Maple - Crown lift (to the line, see photo) T2 - Weeping Willow - Previously reduced Willow, Pollard to lower unions and allow to regenerate due to the size and location of the tree G1 - Conifers - Row of poor specimens, dismantle to ground and re-plant with a new Laurel hedge.	Accept
P2786	The Old Forge Baslow & Bubnell	
NP/TCA/0724/0685	Shown in the photographs are the trees that I am requesting to remove and are made up of two silver birch, one white beam and six mixed fruit trees. The reason I am requesting to remove them is that the properties long time tenants have just left and the estate are wanting to redevelop the courtyard area as it has been left to get quite overgrown and unkempt. The hope was to retain the central fruit trees as they could be easily maintained but unfortunately they are poor specimens after many years of neglect and questionable pruning. The remaining fruit trees are growing too close to the buildings and so request that they be removed before they cause any damage. Then that leaves the two silver birch and the white beam, these have grown really too large for their location and have completely taken over this part of the quite small courtyard and so request permission to remove.	Accept
P11023	If successful in the application after the area has been cleared and re landscaped we propose to replant with fruit trees or smaller ornamental trees more suitable to the size of the courtyard that could be easily maintained. Norman House Beeley	
NP/TCA/0724/0686	Ash T1 + T2 Fell due to Ash Dieback Holly T3 Fell, old hedgerow tree	Accept
P1063	Craven House Tideswell	
NP/TCA/0724/0687	Shown in the photographs are a sycamore that I request to prune away from the children's play apparatus to gain a better clearance and to help keep it clean. There is also a willow that has been left to get out of hand after it's last prune and is now at a stage where it needs a really hard prune to get it back to a manageable size.	Accept
P6035	Derbyshire House, Bakewell Nursery School Bakewell	
NP/TCA/0724/0688	Removal of Laburnum tree in front garden in position indicated by red dot on enclosed plan. The tree is rotting at the base where a section of the trunk had to be removed following wind damage some years ago. Enclosed photographs also show lesions on the trunk and branches.	Accept
P4323	Wellcroft Tideswell	
NP/TCA/0724/0691	Purple leafed plum in rear garden - Reduce crown back to previous pruning points (approximately 2m reduction)	Accept
P6374 + 4921	Tor House Winster	
NP/TCA/0724/0693	Shown in the photograph is a large limb on a lime tree that overhangs the graveyard. Also provided is a photograph of the branch union which I believe to be a potential weak point in the future. I request to reduce the limb to where the red ark shows, cutting back to suitable growth points in order to reduce the load on the limb and so reduce the risk of failure.	Accept
P3068	The Old Vicarage Baslow & Bubnell	
NP/TCA/0724/0694	The three ash trees are close together and suffering from severe ash die back. The trees are in an area which would endanger people if they fell as they are above a lawn area and/or paths on my property. I wish to fell each of the three trees.	Accept
P5034	Eyam Dale House Eyam	
NP/TCA/0724/0703	T1 - Sycamore - Re-pollard to the previous cuts due to it casting shade over neighboring properties T2 - Sycamore - Crown lift (to the line) to suitable replacement branches to allow more light T3 - Ash - Dismantle as showing first sign of ADB T4 - Beech - Sympathetic crown reduction to suitable replacement branches T5 & T6 - Ash - Re-pollard to the previous cuts as over shading the garden G1 - Copper Maples - Pollard to suitable height due to the close proximity and causing excessive shading. Allow to regenerate and maintain to a height as a reduction will not be viable due to a sparse inner canopy and there is nothing suitable to reduce back to	Accept
P2131 + 1228	Bramley Cottage Tideswell	
NP/TCA/0724/0704	Hello I am writing to you in regards to a Multi stem Ash Tree with Stage 4 Ash Dieback the tree is on the side of the road at Beechcroft Cottage School Lane Baslow (Conservation Area). The owner is very concerned with it, with the lane being a school route for young children and bits falling out the tree all the time on to the pavement. The Owner would like this to be removed down to hedge height to mitigate any risk to the public in which I have said this could be done under a 5 day notice as this is urgent works.	Accept
P1556	Beechcroft Cottage Baslow & Bubnell	
NP/TCA/0724/0706	3 yew trees to have branches pruned from garden side of The Lodge property. Branches to be pruned back to suitable locations on tree (e.g. branch unions etc) to stop branches from overhanging over railings.	Accept
P5597	The Lodge Edensor	
NP/TCA/0724/0707	Shown in the photographs is a copper beech I am requesting to prune back away from the building. I intend to cut a 2-3 meter clearance to prevent the tree starting to damage the building but distance will be determined by suitable growth points available. All work to be carried out to BS3998:2010.	Accept
P9171	Box Tree Cottage Pilsley	
NP/TCA/0724/0713	T1 Leylandii. Reduce by c 50% in height. Tree has a large included union at base (twin stems). The work will alleviate loading on the included union, allow more light to garden and bring the height broadly into line with the adjacent hedge. H1 Leylandii: trim sides and top to uniform levels. T2 Oak. Crown reduce by 2-3ft to give regular crown shape and maintain at a size appropriate for the small rear garden in which it is situated.	Accept
P9524	Greystones Rowsley	
NP/TCA/0724/0752	3x mature ash trees with advanced stage Ash Dieback disease, which now pose a risk to highway safety and require removal. See attached tree report for further detail.	Accept

NP/TCA/0724/0768	T1 - Cypress. Remove tree due to poor form and overcrowding. Tree is patchy in places and looks unsightly due to dieback. T2 & T3 - Sycamore & Norway Maple. Remove to provide more light to shrub border and hedging below. G1 - Cypress group. Reduce in height to below phone wire and trim to shape. T4 - Cherry plum. Re-pollard to previous levels to provide space away from side of building and conifers below.	Accept
P10305	Foxwood Pott Shrigley	
NP/TPO/0724/0705	3x <i>Acer pseudoplatanus</i> , early mature, sprayed with a yellow horizontal line on main stem. 2 of the trees have single stems, whilst the third trifurcates at ground level. Trees are in significant decline with canopies displaying signs of poor vigour and vitality, deadwood evident throughout and within striking distance of road / stationary traffic at junction if to fail. Reason for decline due to waterlogging within woodland compartment caused by collapsed highways drainage infrastructure. Re-stock in planting season 24/25 with 6 x <i>Alnus glutinosa</i> , more favourable to current site conditions. Minimum to be used 60-80cm 1+1 in Tubex standard tree shelters, planted 10m from highway. Photos and locations of trees attached / B5056, Pickering	Accept
